Instead of enfeebling the system he invigorates, that nature may be able to expel the disease. It is to the knowledge of those great secrets that he owes his success; and in using which he defies all the Medical Faculty on the Continent to compete with him. All those who are suffering from Lung Diseases of whatever nature, are particularly desired to call, as one-half of the cases of consumption that are pronounced incurable by the Medical Faculty, and considered hopeiess, are readily cared, and yield at once to his mild plan of treatment, from the very fact that not one physician in twenty have the proper instruments for examining the lungs, and those who have, are very few of them capable of judging the amount or kind of disease to which the lung is subject. He has cured hundreds upon hundreds of such patients, who had been given up by other practitioners to die. iven up by other practitioners to die.

The idea that consumption is necessarily fatal has destroyed more human life than the disease itself. For all forms of Dyspepsia and Kidney Diseases he tests the urine, for the excesses deposited, which is the only

The Dr. can show more certificates of cures, sworn to by patients, than any other physician in America. Not like hundreds of empirical swindlers, he never prepares his medicines until he ascertains the disease and i rue cause. He has no puffed nostrums that will cure all diseases.

The diseases of Women and Children receive his particular attention.

To Males and Females of Youth and Maturity.

Seminal Weakness and Spermatorrhees. It is a melancholy fact that thousands who are suffering under hale an usatiate disease are victims of secret habit, self abuse, gradually undermining their constitutionsidiously creeping on, every faculty is shattered, constitution wrecked, and they become subject only for a hospital or mad-house, unless death comes in as a welcome guest to relive the patient from his suffering, and his friends from the painful evidence of his irregularities and errors. The penalty will not cease with the transgression; the constitution has received the shock, and nature, unaided can not repair the injury. The only escape is found in prompt and proper medical treatment. The earlier this is sought the easier the cure. Generally the first symptoms in males, are noctural and sometimes diurnal emissions. In either sex we find weakness of the stomach, abdomen, back and loins, lassitude, loss of memory, confused ideas, low spirits, timidity, aversion to society, love of solitude, with general debility, and frequently attended with cough and bectic fever. This disagreeable and awful complaint, with all its symptoms, can be relieved and promptly arrested by the Indian Herb Doctor and his new method of care He uses an instrument that will arrest the disease instantly, and without any exposure to the patient.

All those who call may depend upon an honest, candid and true statement of their case, and the possibility of his giving them relief—gratis.

. The Doctor permanently cures the Piles, and defies the world to compete with him on Female Complaints. The Dr. challenges the whole Medical Faculty for the treatment of Lung, Liver, Kidney Diseases and Dyspepsia.
